Transaction TX-20499 · Order ORD-88433 · Generated Dec 30, 2026

EXPORTER

Fast Insights, Inc. — Reno, NV, USA

CONSIGNEE

Helvetia BioLogistics AG

DESTINATION

Geneva, Switzerland

INCOTERMS

FOB destination — Geneva

VALUATION METHOD

Transaction value — company customs price list

HS CODE

3822.19

Declared value computation

Product	CryoSense Assay Kit
Quantity	40 units
Customs price list / unit	\$21,000
Declared customs value	\$840,000
Sales invoice value (reference)	\$1,000,000
Variance to be documented	\$160,000

The declared customs value follows the company customs price list under the transaction-value method. The variance from the sales invoice is expected and documented here for the customs broker and for audit. This worksheet is generated from custody events recorded in Transit Guard.

Instructions

Scan the shipping label in the Transit Guard carrier add-in at pickup and at hand-off — the scan confirms receipt of this document pack and logs the custody transfer under TX-20499. Temperature - °C and record every dry-ice re-charge. Do not split the consignment without a new custody event.

Shipper signature: _____

Carrier signature: _____

Signatures are captured digitally at label scan in the carrier add-in.

REQUIRED CUSTOMS DOCUMENTS — DESTINATION CHECKLIST

TRANSIT GUARD — COMPANY-APPROVED SHIPPING DOCUMENT PACK · FAST INSIGHTS, INC.

Transaction TX-20499 · Order ORD-88433 · Generated Dec 30, 2026

Destination: Geneva, Switzerland

- ☐ **Commercial Invoice**
Customs valuation basis for Swiss import
- ☐ **Packing List**
Lots and cartons must tie to the custody ledger
- ☐ **e-dec Import Declaration**
Swiss electronic customs declaration, filed by the broker
- ☐ **Perishable Goods Certificate**
Required for temperature-controlled biological goods
- ☐ **Cold-Chain Temperature Log**
Continuous " 2 °C record from origin — attached from custody events

Checklist state is live in Transit Guard: documents marked ready in the app satisfy this list, and the customs leg cannot complete until every box is checked. Requirement changes are monitored by the Transit Guard AI (customs bulletins).
